

Groundhog Day Party

by John Herm

For some silly reason I have to say,
I get 'lil excited 'bout Groundhog Day.
We're havin this party and you should come
To laugh with some friends in mid-winter glum.

Christmas is passed and so is New Year
So come on over for some Groundhog cheer.
I'll take no excuses... there no other doin's,
Its February 2nd for all of you new ones.

Groundhogs are famous as weather predictors,
It's just goofy we believe a hibernatin' critter.
I actually forget that tale of his shadow
Since always he's wrong and he should be paddled.

We will clean the house, so you mus'nt a-worry...
And we'll watch 'The Movie' of funny Bill Murray
When he smashes that clock and stifles a yell
For every day is the same in Groundhog Day Hell.

There will be a few treats and chili and stew
Served with Grog of the Hog and Wisconsin brew,
So come about 6 on Thursday night,
We'll give that Groundhog a big scary fright.
